Hayden did not belong to the association and it is said he had been criticizing night riding severely. An anonymous letter similar to that received by County Attorney W. L. Krone, was also received by County Judge Crumbaugh. He was told to desist.

Although soldiers are at Eddyville and Kuttawa the night riders are active and bold in their threats. The citizens are greatly alarmed. Ten more soldiers have arrived there.

## THE NEW CAPITOL

Frankfort Business Men's Club Are Discussing Plans.

Building Will Be Completed About the Middle of the Month.

Frankfort, Ky., June 8.—Plans are already beginning to be discussed by the Frankfort Business Men's Club for the dedication of the new Capitol, which is nearing completion. President Ralph P. Taylor, of the General Supply and Construction Company, which has built the Capitol, is here superintending the finishing touches, and says that he expects to have the building ready to turn over to the Capitol Commissioners about the middle of the month. About the only thing that remains to be done of the purely construction work is the laying of marble floors in the corridors on the second and third stories. This will not take long, and then the building will formally be turned over to the State. The Capitol Commission will probably not accept the building until both Architect Andrews and Superintendent Fleenor have finally passed upon it, and certified that it comes up to all specifications.

Surveyors are at work now getting ready for the power house and heating plant, which is to be placed on the level of the Lawrenceburg pike to the east of the building and considerably lower. The power house will be just a little north of the pumping station of the Frankfort Water Company, and will be very convenient to the river, from which its water supply will be obtained. The saving in water rents will be a great one. The water works system will be operated from the power house, along with the lighting and heating systems. It is also proposed to have an ice-making plant installed to furnish ice for all the departments.

Architect Andrews, who was commissioned to work up designs for the furniture, is busy on the job. He hopes to have his plans and estimates ready to submit to the commission by the 1st of July. As soon as he is ready the commission will advertise for bids. Already a number of large establishments are figuring on the furniture, and the competition promises to be keen for this contract. It is probable that the contract for the furniture for all classes will be let as a whole, although it may be divided up into classes.

Olmstead Brothers, the landscape gardeners are mapping out the approaches, walks, drives and other configuration of the grounds, and it is now expected to be but a short time before the Capitol Commission will have before it designs and details for the completed whole of the great work.

Sick headache and biliousness relieved at once with Rings Little Liver pills. A rosy complexion and clear eyes result from their use. Do not gripe or sicken. Good for all the family. Sold by Anderson-Fowler Drug Co. Incorporated.

Close of the Kentucky Federation of Woman's Club Convention.

Paducah, Ky., June 5.—The fourteenth annual meeting of the Kentucky Federation of Women's Clubs came to a close this morning. The executive committee selected Owensboro for the 1930 meeting. It was the unanimous opinion of the delegates that the Paducah meeting was the most successful in the history of the organization.

The Credentials Committee's final report showed a total of 103 visitors here, of which 86 were delegates. The social features were pronounced the most charming that the Federation had ever been honored with. At noon nearly all the delegates had left for their homes.

This new hotel is eight miles south of Hopkinsville on the L. & N. railroad, only 250 yards from the road. Is one mile north of Pembroke and 14 miles from Guthrie. The distance from Hopkinsville by the turnpike is just an hour's drive and the hotel will doubtless be given a good send-off by pleasure seekers from this city. The water is of long tested medicinal value and there is plenty of shade about the place. Mr. Ackerman, the Pembroke hotel man, will run the hotel during the season.

### PIONEER CEMETERY

Will Soon be Ready for Inspection By the Monument Committee.

The committee in charge of cleaning up the old cemetery, under the recent order of the City Council, is making considerable headway. The work of removing the dead timber and thorn trees is about completed and the high weeds have been cut down. The north fence is to be moved and a strip of ground donated by Mr. R. E. Cooper taken in. But few of the old headstones are still standing and these will be left as they are. It has not been decided what will be done with the broken headstones scattered over the ground. This will be settled after the appointment of a monument committee composed of ladies whose ancestors are buried in the cemetery. The neglected spot contains about two acres and several fine old forest trees still remain and some nice cherry, elm and walnut trees will be left for shade. The last body interred in the cemetery was that of Dr. Augustine Webber, Dec. 24, 1873.

### STATEMENT OF METHODS

Employed by the Treasury Department in Securing Sites for Federal Buildings

Treasury Department, office of the Supervising Architect.

Upon the enactment of a law authorizing the acquisition of a site for a Federal building the Treasury Department invites, through a local newspaper, proposals for the sale or donation of a suitable corner. This advertisement gives such information as to the dimensions of the site and the general requirements as will enable intelligent preparation of proposals.

The offers are opened in Washington at the time stated in the advertisement, and as soon thereafter as practicable an agent of the department is sent to make a personal examination of the proposed locations and such others as he deems desirable. Upon this report, together with representations in writing from other sources, the department selects the site and, if the property is to be acquired by purchase, accepts the offer of the successful bidder, subject to the conditions stated in the advertisement and the Attorney-General's approval of the title.

Whenever the Department is unable to purchase an acceptable site at a reasonable price, or where acceptable title cannot be secured by voluntary conveyance, a selection is made and the title acquired by condemnation proceedings, in which the price to be paid is judicially determined.

The building (if any) on the site should be reserved by the vendor, to be removed upon notice after payment for the land has been made. Generally notice to move is not given until the construction of the Federal building is about to begin, if the vendor is willing, pending such removal, to pay a reasonable ground rent.

Plans for public buildings are taken up in the order in which the titles to the sites therefor are vested in the United States, and the contracts for their construction are let at as early a date as practicable.

### OVER THE STATE.

Louisville, Ky., June 8.—Democrats of Kentucky meeting in mass conventions in their respective legislative districts evidence by their numbers and their enthusiasm a determination to put aside all factional differences and to join in harmonious concert with all other Democrats in endorsing William Jennings Bryan for the Democratic nomination for president and in sending to the Denver convention a delegation that will be representative of all the elements of the party in Kentucky. The delegations to the State convention, which meets June 11 at Lexington, were chosen by practically unanimous vote in nearly every county and the resolutions adopted were a unit in declaring for party harmony.

Returns from practically all counties show that Senator James B. McCreary and former Gov. J. C. W. Beckham are practically sure of being two of Kentucky's "Big Four," while Congressman Ollie James also has received a sufficient number of instructions to give him a leading place in the race for delegate from the State-at-large.

But two contests have been reported. These are from Kenton and Campbell counties, and are due entirely to local issues.

In Fleming county the Equity and anti-Equity forces lined up and the latter controlled the convention by 12 votes.

Returns from the Second district show that three counties—Webster, Union and McLean—instructed for Dr. J. A. Goodson, of Webster, for executive committeeman to succeed R. B. Bradley.
